

Angling Regulations - Summary

Regulations related to the exploitation of Marine Resources, made in terms of section 61(1) of the new Marine Resources Act, (A on the 1st August 2001 and was amended on 7th December 2001.

It is important that the general public takes note of some relevant aspects of the new Marine Resources Regulations.

Interpretation of Angling Regulations

Regulation 5 and 7: PERMITS

Every person who angle for recreational purposes must be in possession of an angling permit, which can be obtained from the of Fishing Centre, in Henties Bay, telephone +264-64-500320.

Office hours:

Monday – Friday: 08:00 to 17:00

Saturday, Sunday & public holidays: 08:00 – 13:00

A permit for one month is N\$14.00 and for one year N\$168.00.

Regulation 6: MEANS OF HARVESTING

Only a hook and line, a scoop net to lift rock lobsters from the water, a ring net or diving is allowed.

Regulation 8: DAILY BAG LIMIT

This regulation determines the daily quota that can be caught by an angler namely:

Barbel: 30

Snoek: 20

Shark: 1

Cob, West Coast steenbras, blacktail and galjoen: 10 in total.

The following sizes are determined for blacktail, galjoen, kob, and steenbras:

Blacktail: Minimum size of 25 cm;

Galjoen: Minimum size of 30 cm;

Cob: Minimum size of 40 cm, but not more than 2 individuals longer than 70 cm (head and tail included);

Steenbras: Minimum size of 40 cm, but not more than 2 individuals longer than 65 cm (head and tail included).

Rock Lobster: The season and the minimum size remains unchanged, i.e. from 1st November to 30th April, both days included respectively. The maximum number a person may catch and retain, is seven (7) rock lobster per day per permit holder. A permit holder may also catch and retain up to 7 rock lobsters per day per permit holder.

Marine Resources that may be harvested without a fishing permit

1. 1 kg of aquatic plants, other than brown seaweed;
2. 50 black mussels;
3. 2,5 kg dry weight or 10 kg wet weight of brown seaweed;
4. 15 limpets
5. 5 molluscs, other than black mussel, limpet, periwinkle or white mussel;
6. 25 periwinkles;
7. 10 kg of seashells; and
8. 25 white mussels that is not passable through a ring with an inner diameter of 38 mm, when it is in a whole state.

Regulation 9 – Prohibited species

1. Worms are prohibited.
2. Red bait may not be cut or in any other way dislodged from the substrate, only red bait which has been washed up on the sea.

Regulation 11: TRANSPORT OF FISH

Each angler per vehicle in possession of a permit may transport 3 times the daily bag limit, but not more than 10 of each of the following species: galjoen and blacktail. All four these species must be in a whole state, head and tail included in order to determine the size.

That means that each angler in possession of a permit may transport the following amount of fish, regardless of how many persons are in the vehicle:

Barbel: 90

Snoek: 60

Shark: 3

Kob, steenbras, blacktail and galjoen: 30 in total, but not more than 10 of each species and all in a whole state. Of the 10 kob and of the 10 steenbras allowed, 6 may be longer than 65cm, head and tail included.

Rock lobster: 7, all in a whole state.

One very positive aspect of the regulations is that every person in a vehicle may now transport his/her own quota of fish, which is provided he/she is in possession of a permit. This gives a group of people the opportunity to travel with one vehicle and each transport their own fish. Anglers must make sure that they have their permits with them at all times.

Media Release by the Permanent Secretary Fisheries and Marine Resources 21 Dec Recreational Purposes

Regulations related to the exploitation of Marine Resources, made in terms of section 61(1) of the new Marine Resources Act, (Act No. 101 of 1997) on the 1st August 2001 and amended on 7th December 2001. A large number of visitors enjoy recreational fishing along the coast and the general public takes note of some relevant aspects of the new Marine Resources Regulations. Conservation measures include inter alia:

Regulation 5 – Permit.

(1) A person who, for recreational purposes harvests in Namibian waters, must –

- a. be in possession of a fishing permit; and
- b. carry out such harvesting subject to the conditions prescribed by these regulations.

(2) A person referred to in subregulation (1), who is found without a fishing permit-

- a. is guilty of an offence; and
- b. must produce that permit within a period of 21 days from the day on which the person pays the fine prescribed in regulation 5(2) to comply with subregulation (1) (a)

(3) A person, who fails to produce a fishing permit within the period of time prescribed by subregulation (2), is guilty of an offence.

Regulation 6 – Means of harvest for recreational purposes

A person may not for recreational purposes harvest marine resources by any means other than-

- a. a hook and line, whether operated by a rod and reel or otherwise, and using a scoop net to lift rock lobsters from the water surface;
- b. a ring net; or
- c. diving.

Regulation 7 – Issuance of recreational permits

1) A fishing permit for recreational purposes referred to in regulation 5 (a) must be issued by the Minister or by any person or authority designated by the Minister, if that person or authority agreed to do so.

2) A fishing permit-

- a. must be issued in the form set out in Annexure L; and
- b. may be issued for a period of either one month or one year and may be obtained upon payment of a fee determined by

One month against payment of N\$14.00

One year against payment of N\$168.00.

Fishing permits for recreational purposes are now available at the below listed places:

Ministry of Fisheries & Marine Resources

Brendan Simbwaye Square, Block C,

C/O Uhland & Goethe Street,

Private Bag 133355, Windhoek

Facsimile: 063-203337

Ministry of Fisheries & Marine Resources

Henties Bay Fishing Centre,

Telephone: +264-64-500320

However, we have noticed that some anglers are not bringing the required documentation when purchasing the permits. We urge or Passports for intended permit holders. Anglers under the age of 18 are requested to produce birth certificates and passport photo with fishing permits.

Regulation 8 – Daily bag limit

(1) A person may not, for recreational purposes, in one day harvest more than-

- a. 30 fish of the species barbel;
- b. 20 fish of the species snoek
- c. one (1) shark

(4) Subject to subregulation (3) an 11 (1) a person may for recreational purposes harvest any of the following species of fish:

- a. blacktail (dassie);
- b. galjoen;
- c. kob (kabeljou);
- d. West Coast steenbras;

Provided that the total of fish harvested does not exceed 10 in one day.

(5) A person may not harvest any species of fish referred to in subregulation (2), which is smaller or larger, as the case may be, than

For the purpose of subregulation 8(3), the species referred to in regulation 8(2) may not, including head and tail, be shorter than -

- a. 25 cm in the case of blacktail (dassie);
- b. 30 cm in the case of galjoen;
- c. Subject to 2(a), 40 cm in the case of kob (kabeljou);and,
- d. Subject to paragraph 2 (b) 40 cm in the case of West Coast steenbras.

Notwithstanding paragraph 1(c) and (d), a person harvesting for recreational purposes may not in one day harvest-

- a) more than 2 individuals of kob that are each longer than 70 cm, including head and tail;
- b) more than 2 individuals of West coast steenbras that are each longer than 65 cm including head and tail.

(5) A person may not-

- a. harvest more than 7 rock lobsters in one day; or
- b. accumulate or have in his or her possession more than 7 rock lobsters.

Regulation 11 – Possession and Transport of marine resources

1) A person may not have in his or her possession or transport in a vehicle or vessel any quantity of marine resources caught

- a. which exceeds the accumulated bag of more than three days in respect of the fish referred to in subregulation 8(1) and (2): regulation 8(2), the accumulated bag of 30 fish does not contain more than 10 fish of one particular species of fish and;
 - b. without being in possession of a fishing permit.
- 2) A person may have in his or her possession or transport in a vehicle or vessel fish referred to in subregulation 8(1) and (2) regulation 8(4), on behalf of another person, providing that person is present and in possession of a fishing permit.
- 3) A person may not have in his or her possession or transport in a vehicle or vessel fish, which is not in a whole state, if that referred to in regulation 8(3).

Rock Lobster

The Fishing season and the minimum size remains unchanged, i.e. from 1st November to 30th April, both days included and 65n maximum number a person may catch and retain, is seven (7) rock lobster per day per permit holder. No more than seven (7) rock transported at any time in or on a vehicle and such lobster shall be in a whole state. A person may not harvest any rock lobster be

Quantity or mass of Marine Resources that may be harvested for own use without a fishing permit

- a. 1 kg of aquatic plants, other than brown seaweed;
- b. 50 black mussels;
- c. 2,5 kg dry weight or 10 kg wet weight of brown seaweed;
- d. 15 limpets
- e. 5 molluscs, other than black mussel, limpet, periwinkle or white mussel;
- f. 25 periwinkles;
- g. 10 kg of seashells; and
- h. 25 white mussels.

A person referred to in subregulation (5) may not harvest or have in his or her possession-

- a. more than the quantity specified in Annexure K in respect of the marine resources referred to in that Annexure; or
- b. white mussel that is able to pass through a ring with an inner diameter of 38 mm, when it is in a whole state.

Fishing areas for recreational purposes

Fishing for recreational purposes is allowed only in the following areas:

- a. Terrace Bay and Torra Bay
- b. From the Ugab River to Walvis Bay (excluding the Cape Cross area)
- c. Pelican Point to Sandwich Harbour
- d. From the northern limits of Lüderitz Bay to Grosse Bucht; and
- e. From Pamona Island to the Orange River.
